## Who we are

Sea Horse Logistics is a Ugandan-based clearing and forwarding solutions provider with extensive networks within the East African region and a wide global reach connecting businesses with lives, creating sustainable value and opportunities while ensuring sustainable surplus within the supply chain. Our solutions are forged and calibrated to deliver timely with amicable efficiencies most of the time to our clients. Our strategic geographical positioning at the center of the East African region gives us a competitive advantage to effectively reach and deliver to and from Uganda, Rwanda, South Sudan, the Democratic Republic of Congo, Burundi, Central African Republic, Kenya, Tanzania, and Zambia, among other proximity states. We link this region and facilitate trade within the global business citizenry by road, air, sea, and rail. Our extensively experienced staff are a critical pillar in ensuring seamless goods and service flows through secure, orderly systems irrespective of the nature of goods, size, business complexity, and regional to global reach needs.

### OUR VISION

We aspire to be the innovative global logistics company of choice by value delivered.

### OUR MISSION

To connect businesses with people, create opportunities and deliver value timely always.

### OUR CORE VALUES:

Quality	We take the most effective options that deliver value to our customers and enhance their supply chain surplus most of the time.
Efficiency	We optimise processes and embrace systems that deliver more at lesser cost to maximise value.
Sustainability	We serve to meet human needs and improve living standards with tangible, positive impacts on the environment and economic spaces to humanity for the longer term wherever we operate.
Collaboration	We bring together diverse talents and expertise to form efficient and effective teams that deliver successful results, enhance and uphold value.
Excellence	We embrace every challenge objectively and strive to be better each time.

## Our Digital Consultation Services

**Sea Horse embraces technologies to create new opportunities and empower businesses by availing accurate insights that generate smarter decisions. The result is a more efficient supply chain system and enhanced cost savings aiding you to reach your goals sooner. Moreover, these solutions are custom-made to sharpen and sustain your competitive edge right from your location.**

Tap into the new opportunities that come with digitalization, making your supply chain more robust and efficient. Collaboration between our partners and suppliers through digital connectivity creates seamless data exchanges, removing barriers and revealing new levels of accuracy and efficiency sustainably. Sea Horse logistics is available to innovatively and effectively navigate this landscape with you. Our solutions make your supply chain more efficient through enhanced transparency, robust responsiveness, simplification of supply chain management, and smarter decision-making.

Every business creates valuable data daily. Collecting this data, analyzing it, and efficiently turning it into actionable insights is a game changer and a turn-key to the next level

of excellence. We analyze and optimize your business processes using our expertise and specialized tools to deliver custom solutions that help you find new opportunities and better your responsiveness to required ad hoc improvements. In close collaboration with each client, we determine the optimal digital solutions that best address identified and forecasted challenges and needs. Furthermore, we support you in maximizing your return on the technology investment using dashboards, visibility reports, accurate measurements, and performance analysis toward a sustainable supply chain. Our experts are ready to dive in using our online systems and infrastructure to support you maximize and unlock sustainable value in your supply chain.

Our data integration systems come with numerous advantages to you; Enabling the direct exchange of transactions to reduce turn-around times Eliminate illegible prone handwriting, lost documents, and erratic entries and reentry, thereby increasing data accuracy with speed. Accurate data enhances business process efficiencies enabling critical focus on higher value tasks and critical data handling in real-time. Process efficiencies lower operating costs by reducing paper consumption – good for the planet, reduced cost for storage space and filing, courier and postage costs, and laborious, time-wasting document retrieval. Do we have our own Data interface Apps? Collaboration with transporters – tracking devices.

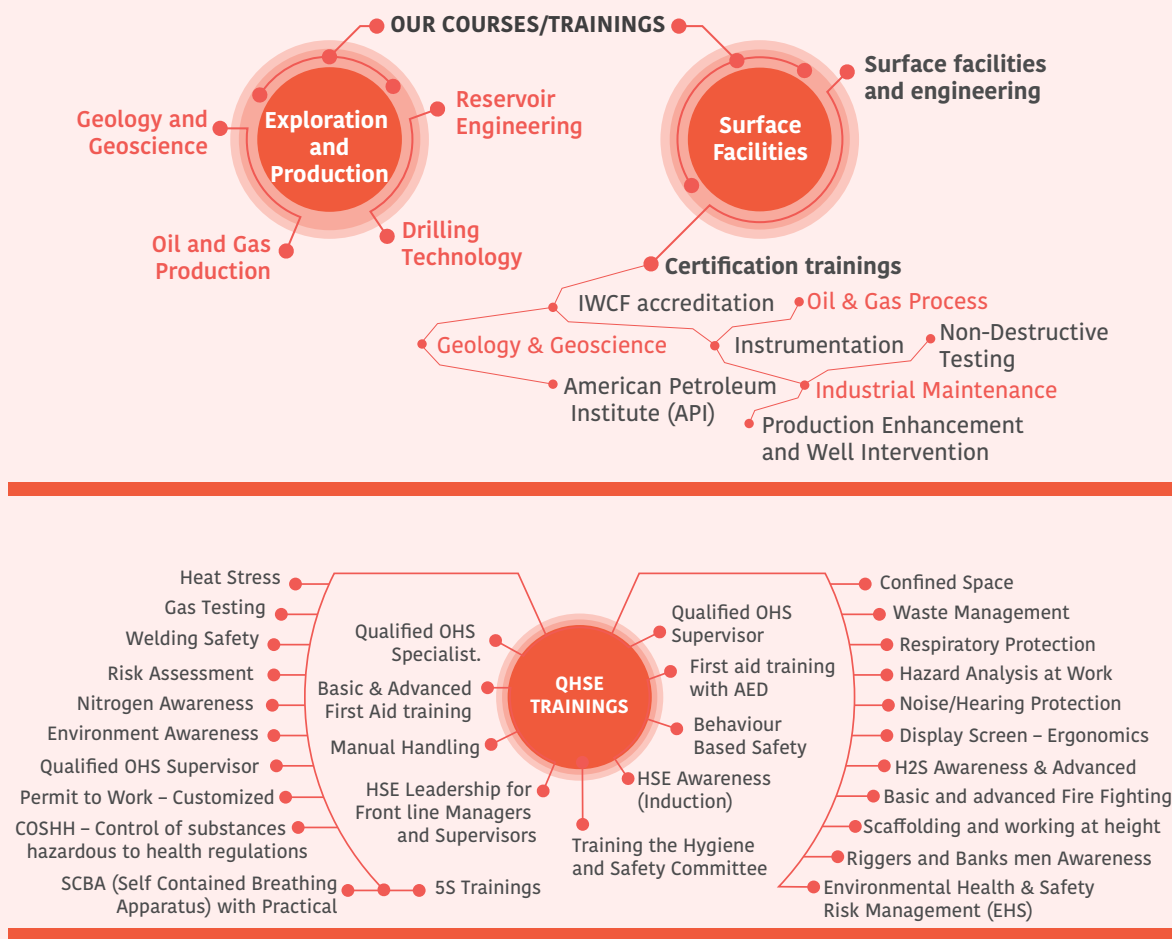

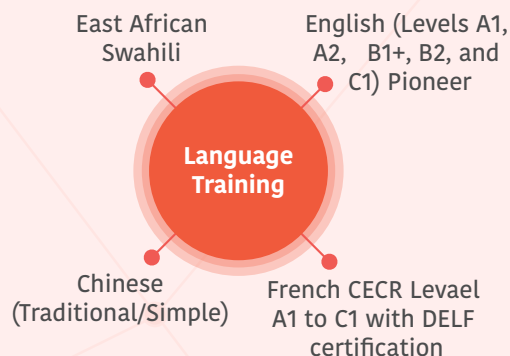

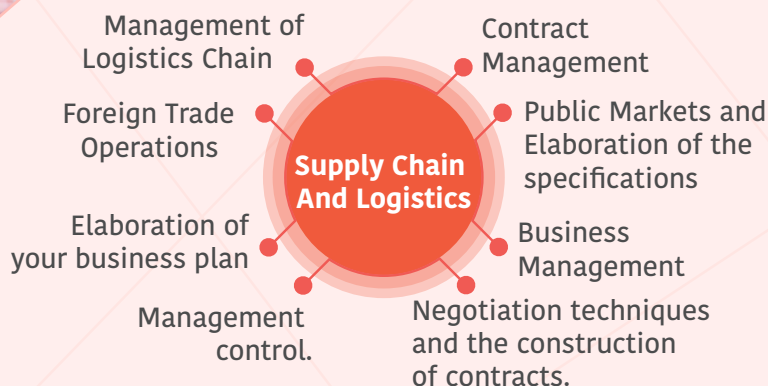

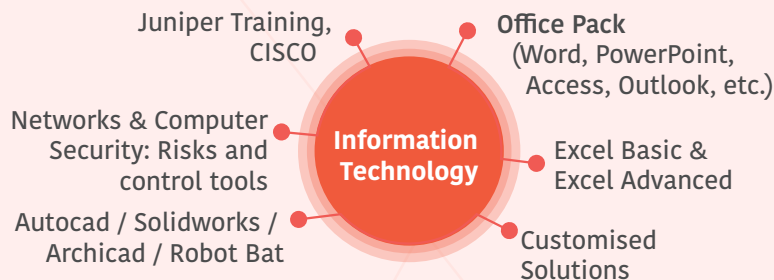

Working in partnership with Safety Integrated Solutions (SIS), headquartered in Algeria, we offer industry-standard training and advisory services in the oil and gas sector. Our training is offered at venues in Algeria, Kenya, Oman, UAE, and Uganda and at client locations on request. Our training covers three levels; basic, intermediate, and advanced, with respective certificates issued at the end of each level within various disciplines.

### Oil and Gas Technical Training

We take pride in delivering excellence at every session, augmenting our quality-based value delivery at every stage. Our carefully selected experts come with exclusive industry standard experience spanning over 30 years across the globe. The extremely competitive and increasingly complex petroleum industry calls for well-empowered human resources to deliver excellent results and create sustainable value. Our courses include:
